Pakistan successfully tested Ghaznavi ballistic missile with ability

to carry various types of warheads

London , 23.01.2020, 10:49 Time

USPA NEWS - Pakistan successfully tested Ghaznavi ballistic missiles with the ability to carry various types of warheads.

According to the ISPR, Pakistan has successfully tested the Ghaznavi ballistic missile, it can target up to 290 km from ground to ground.

Dr. Arif Alawi and Prime Minister Imran Khan congratulated the engineers and scientists on the successful experience, the Chairman Joint Chiefs of Staff Committee and the heads of the three forces also congratulated the team.
Pakistan's defense has grown even stronger with the experience of the new Ghaznavi ballistic missile. Remember that Ghaznavi had successfully tested the ballistic missile Ghaznavi that hit Pakistan from ground to land on August 29, 2019. Earlier, the ground-to-missile Shaheen-Toe was successfully tested; the Shaheen-to-Ballistic missile can successfully target up to 1500km.
